

# FACT SHEET

## MULESING STATUS REPORTS

### Summary

AWTA's Mulesing Status Report summarizes the proportion of mulesed and non-mulesed wool in a wool delivery or shipment. It was introduced to assist companies along the wool supply chain to independently verify the composition of mulesed and non-mulesed wool in their products. The document is not a certificate, but rather an expanded summary of the Mulesing Status declarations displayed on an official IWTO Combined Certificate. This additional information includes the full names of the standard industry categories and the ratio of each in the overall weight of the delivery.

### Service Options:

An example of an AWTA Mulesing Status Report is shown below:

AUSTRALIAN WOOL TESTING AUTHORITY LTD	
Reg'd Office: 70 Robertson Street, Kensington, Victoria 3051 PO Box 240, North Melbourne 3051 Tel: (03) 9371 4100 Fax: (03) 9371 4191
